

**REMARKS**

**Specification**

Amendments to the "Brief Description of the Drawings" and "Abstract" in the present application have been made in accordance with the Examiner's suggestion.

**Claim Rejections under 35 U.S.C. §112**

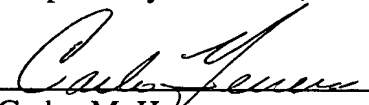

Claim 8 is rejected under 35 U.S.C. §112, second paragraph, as being indefinite for insufficient antecedent basis for the phrase "the apertures of the support structure." Amendment to claim 8 of this patent application has been made to correct the lack of antecedent to recite that apertures in the "insert member" recited in claim 1. Support for this amendment to claim 8 is found in the specification on page 6 and 7 with reference to Figures 9-11.

By this Amendment, the preamble to claims 1-10 has been revised to more distinctly and clearly recite the subject matter Applicant regards as his invention and it is respectfully submitted that claims 1-10 satisfy the requirements of 35 U.S.C. §112.

Having fully addressed the Examiner's rejections it is believed that, in view of the preceding amendments and remarks, this application stands in condition for allowance. Therefore, reconsideration and allowance are respectfully requested. If, however, the Examiner is of the opinion that such action cannot be taken, the Examiner is invited to contact the applicant's attorney at (717) 295-6561, so that a mutually convenient date and time for a telephonic interview may be scheduled.

Respectfully submitted,

By:
